Expertise

HTML

Experienced

I am experienced in HTML, proficiently creating structured and semantically rich web content. My expertise extends to ensuring cross-browser compatibility, responsive design, and accessibility compliance. I leverage HTML5 features and prioritize clean code for efficient maintenance.

I am skilled in implementing responsive design principles and leveraging HTML to build websites that adapt gracefully to different screen sizes and devices.

CSS

Skilled

I possess a strong command of Cascading Style Sheets (CSS) with a focus on creating visually appealing and responsive web designs. My expertise includes CSS3 animations, transitions, and layout techniques. I excel in crafting pixel-perfect, cross-browser-compatible styles that enhance user experiences.

My expertise extends to creating adaptive designs and making websites look stunning on various devices while optimizing load times for exceptional user experiences.

JAVASCRIPT

Intermediate

I possess intermediate-level proficiency in JavaScript, capable of creating dynamic and interactive web experiences. My skills include DOM manipulation, event handling, and AJAX requests. I'm comfortable working with JavaScript libraries and frameworks to enhance front-end functionality and user engagement.

I excel in solving complex programming challenges using JavaScript, with a focus on writing clean and efficient code that enhances website functionality and performance.
